ANARORY'S GLOSING SCENE.

Lance, the most desperate and ferocious of he entire gang of Chicago Anarchists, seated the gallows this morning by killing himself. That he should have been able to secure a bomb at this stage of the proedings, is a severe reflection upon the loose nethods of the jailers.

This sensational development will increase if possible, the interest of all Christendom in the closing scenes of the tragedy of Anarchism enacted at Chicago.

It is not strange that London, Berlin, Paris and St. Petersburg look on with anxious concern. The dynamite movement was born of Old-World tyranny. It is a desperate reacion against evils that do not exist here. It well that it should be stamped out, and ning will do it more effectively than to let justice take her course in Chicago.

THE WORLD presents, as is its wont, the fullest and most graphic report of the presant phases of this remarkable feature of nineath century civilization.

THE BOODLE TRIALS.

Col. FELLOWS reiterates to a WORLD rerier that he will " try the Boodle cases in ch order and as promptly as the imporon of each case and the interests of public nettos shall demand."

Good ! Shall CLEARY or SERVILS come first to the bar under this rule?

We do not like to predict that not another odle Alderman will be convicted. But we put upon record the belief that as a result of this election it will be found extremely difficult, if not impossible, to obtain another conviction in these cases.

BABBLING THE TRUTH.

Even that form of childhood known as senility sometimes verifies the proverb as to those who speak the truth.

The editor of the Sun babbled the truth in this fashion when he advertised his dotage by confessing that his reason for abandoning the support of Nicoll " relates to The World steelf." He has just blurted it again in hining to the editor of THE WORLD: " We wish that you had never come to New York."

"Pity the sorrows of a poor old man." He to longer knows how to lie with plausibility or to tell the truth with discretion.

CORPORATION RULE.

The Manhattan "L" has rust held what is own as an election.

It does not appear how many voters participated in this remarkable contest. Nor floes it matter, for shekels, not men, conrolled the polls. The United Plutocracy in the field swept everything before it. Of course a ringing series of resolutions were adopted by the directors, indorsing themselves and heartily approving their past policy. Armed with this indorsement, they saturally did not hesitate to unanimously reelect themselves.

The entire proceedings would be uniquely rageous if not so familiar. Here is a publie hishway, built in the public streets, desendent upon the public for its existence, its privileges, its patronage, its enormous dividends on its real cost. And yet the public has hardly a word to say about its management or mismanagement.

If this is not a legalized outrage, will some one please tell us what would be?

THE NEW B. AND O. DIRECTORY.

Major Pangborn Tells of the Bright Fatur of the Read. (SPECIAL TO THE EVENING WORLD.)

PITTSBURG, Nov. 10 .- Major J. G. Pangoorn, late Assistant General Passenger Agent of the Baltimore and Ohio, is in the city, and asked about the coming annual election for directors of the road, he said: "I think there is no doubt of the election of Mr. Spencer to the presidency and Mr. Lord to one of the vice-presidencies. For anything I may know, Mr. King is not to leave the Baltimore and Ohio. He is one of the brightest men in the railroad service in the United States. His work for the Baltimore and Ohio in its efforts to get into Philadelphia was wonderful, being both intelligent and effective. I feel confident that the snydicate will have nothing to say in the selection of the official list. It wants the road operated in an intelligent manner, knowing that if it is it will pay. Mr. Gorman, I hardly think, will be in the new directory.

pay. Mr. Gorman, I hardly think, will be in the new directory.

He is anxious to get the bed of the Chesapeake and Ohio Canal from Cumberland to Washington, in order to let in the West Verginia Central and Pittsburg road to Washington and Baltimore. It will not go his way for some time yet, however. The Baltimore and Ohio future is brighter now than ever. It will get into New York over the Reading and Bound Brook route, and become one of the best of the lines east of the Mississippi. The present complications will be safely disentangled, and the road will be all that its brightest prospects ever promised."

GEN. TRUMBULL BEFORE OGLESBY.

An Eurnest Appeal in Behalf of the Con demned Aparchists.

ISPECIAL TO THE EVENING WORLD, I SPRINGFIELD, Ill., Nov. 10.-Following Gen. Trumbull's speech before Gov. Oglesby n behalf of the condemned Anarchists:

"May it please Your Excellency, as an old soldier who has fought with you on the battlefields of the Republic ask permission to say one word on the side of elemency. What I have to say about the fairness or unfairness of this trial. I have said in a little pamphlet which Your Excellency does me the honor to say you have already read. Yet I simply wish to add one ppeal for mercy. Three weeks, ago in the ity of Chicago, was unveiled the statue of braham Lincoln, and the orators told us city of Chicago, was unveiled the statue of Abraham Lincoln, and the orators told us then that mercy was the crowning glory of Lincoln's majesty. Your Excellency, you were Mr. Lincoln's friend, your name is now history, and it must go down to posterity in company with his and like his. I hope to see it connected with the same holy blessings because of magnanimity and mercy. When our children unveil your statue, as they will some day, I believe the orators of that day will say, as the orators in the city of Chicago said three weeks ago, that the characteristics of the martyred President and your characteristics resemble one another, and that mercy was the crowning glory of your magistrature as it was of Abraham Lincoln. In behalf of the families of these men, in behalf of the men themselves, in behalf of thousands and hundreds of thousands of people who sympathize with them in their misfortunes, I implore Your Excellency to show mercy in this case. Museum, and Prof. William H. Goodyear. Curator of the Department of Paintings, to see what their views were on this point.

"If you ask my own personal feeling in the matter," said Gen. di Cesnola, "I am in favor of the Sunday opening. I have always been in favor of it. I was brought up in Italy, and all my visits to museums were made on Sundays. The views of the trustees on the point are their own, of course."

"Now, as director of the Museum," continued Gen. di Cesnola, "I can only say that if the Museum is to be opened on Sundays the additional expense for this must be defrayed. The building of the new wing and other outlays have considerably increased our expenses. The Museum should be endowed. If there were money enough, I would open it on Sundays, light the gas and give a free lunch," he added, pleasantly.

"The money for running the museum is chiefly drawn from private contributions. There is need of a permanent fund. The work and the expenses of the Museum are increasing yearly. This coming year they will be heavier than ever, owing to the new wing. About forty-two men are necessary for the work of the Museum. Catalogues have to be printed, cases have to be made, the building has to be heated, and so on. All

A number of children who were playing in East Twenty-sixth street on Wednesday afternoon scattered in terror at appearance of a mad dog lashed among them, snarling and snapping doubt the Museum authorities, in setting apart certain days on which no fee should be charged for admission, selected those days with some consideration for the convenience of the public. There seems to be no sufficient reason why the day of the week on which people can best come is not one of those on which the museum is thrown open. That the Metropolitan Museum will admit the public to its exhibits on Sundays at no very distant time seems evident. It rests with the trustees to draw the bolt which bars the doors to Sunday visitors. right and left. James McWonand, four years right and left. of nickels were passed in to the ticket sellers for fares, and that number of "pink trip slips" were dropped into the ticket boxes on the four elevated roads. This means that nearly half a million, or, to be exact, 425,000, passengers are carried daily.

Of course the Third avenue line does more business than any of the others. It carried 66,575,454 passengers last year, or about 182,000 every day. That was more than twice the business of the Second avenue line, a third more than the Sixth avenue line did, four times as much as was done by the Ninth avenue line, and more than was done by the Sixth and Ninth avenue lines together.

these things cost money, and the money is not assured."

Mr. Goodyear expressed his own view as entirely favorable to the Sunday opening. "Possibly there is in the public mind a slightly erroneous idea in regard to the Metropolitan Museum of Art," said he. "Many look on it as an entirely public institution, and hence feel that if the public demands the Sunday opening the doors must be thrown open. This is not quite correct. It is more truly a private institution, composed of wealthy gentlemen and patrons of art. True, the city allows it an annual appropriation, and in consideration of this the public is admitted free four days in the week. The additional sources of revenue are the admission fees on the two pay days, the sale of catalogues and the income from invested funds, which last year was \$7,780. This is not enough." TWO FIREMEN INJURED.

The city's annual appropriation to the Metropolitan Museum of Art and to the Museum of Natural History is \$15,000 to each. Last year the city offered to add \$5,000 more if the museums would open on Sundays. The Museum of Natural History was inclined to do so, but the Metropolitan did not accept the offer. This year the city has done nothing more in the matter. A Hook and Ladder Truck Upont in Turnin Too Sharp a Curve.

The First in the Market.

One of the interesting sights in Fulton market this morning was a consignment of fresh caught Kennebec salmon to Middleton & Carman, the very first that has been received in the market this year. There were eight in all, one of them weighing over twelve pounds, and beauties they were, as they layltogether on the white marble slab, showing their sleek, glistening sides and symmetrical forms. The first frees samon in the market are always regarded as fancy fish, and these, of course, were snapped up early in the morning by eager purchasers. The price at which they were sold was 80 cents a pound. After this time receipts may be expected to be more liberal, and prices will decline, although freen salmon never becomes a drug on the market.

Twelve-year-old William Lyon was held at the Es sex Market Court this morning for knifing ten-year old Issae Kupfer, and politics is alleged to be the cause of the difficulty. William and other juvenile patriots were celebrating the Democratic victory by a bonfire in Rutgers Square when Isaac, who is suspected of Republican tendencies, came along, was booted and finally was atabbed in the back. William tearfully said it was an accident.

ON STAGES HERE AND THERE

A. M. PALMER'S COMPANY TO DESCEND ON THE PACIFIC COAST.

Contracts Signed for a Tour Next Summer Cast of "The Great Pink Pearl" on the Road-Good Business Done at the Thea-tres on Election Day-Mr. Sothern May Join the Adonis Club-Coming Chan-

coast will be made by Manager A. M. Pal. mer's entire company next summer, contracts to that effect having been made yesterday with Mr. Al. Hayman, of San Francisco. These contracts were simply to carry out an arrangement which was made last year, by which the same company was to visit San Francisco last summer. Owing, however, to the phe-

nomenal success of "Jim the Penman," which scored an eight weeks' run in Boston during the summer, Mr. Hayman consented to allow the Madison Square Company to defer their visit to the Pacific until the coming summer. The contract calls for the complete company, and such plays that may have been produced during the New York season. Mr. Hayman says he would be satisfied with "Jim the Penman," without any other plays, but Mr. Palmer-who like Mr. Daly, is extremely anxious for glory, though by no means despising lucre-desires to show the versalitity of his company by presenting other plays. Besides the tour, which extends west now to San Francisco and back, the city of Chicago is now incorporated in Mr. Hayman's contract. The company's season in Chicago was formerly under the management of Mr. McVicker of that city. Mr. Palmer's people will have a special train provided for them, and will make the trip to San Francisco in three days and a half.

It is quite likely that William Gillette will play in "The Great Pink Pearl" in this city during the season. In fact, there is no saying what Mr. Gillette will do, in his overwhelming energy. The cast of the people who are to support him in "The Great Pink Pearl" on the road, includes Charles Bradshaw, Raymond Holmes, William Cotton, Frank Carlyle, Mme. de Naucaze, Miss Leslie, Miss Sydney Cowell, Miss Loring, little Elsie and Hardy Vernon.

It is rumored that Messrs. Robson and Crane will show their versatility by becom-ing their own managers next year, and that the energetic Mr. Joseph Brooks will have to seek fresh fields. Mr. Brooks has been the manager of this company for three sea-sons. The changes which have been made in "Wife" at the Lyceum, render that play far more concise in form. It will stay where it is. Prof. W. Frohman has suspended all the rehearsals for subsequent work.

There will be no change of programme at Wallack's Theatre for several days, "Caste" still proving exceedingly attractive to large audiences. The rehearsals of "School" are so far advanced that this second of the Robertsonian series will be ready for production next week. Mr. Abbey had been greatly encouraged in his reproduction of these celebrated plays by the large patronage they are evidently intended to create. As soon as "School" is produced, "Forget-Me-Not" will be put in rehearsal.

M. B. Leavitt has closed a contract with the Hebrew Dramatic Company, which in-cludes sixty-five people from the Oriental Theatre in the Bowery, for a tour of thirty-five weeks, starting at Boston and playing in the principal cities en route for the Pacific slove.
